

★★★★ Important Announcement ★★★★★

Sunlight Electronics Laboratory was established in 1974, along the way upholds the "integrity" principle in doing business, all the researched, developed and manufactured Electro-acoustic test instruments are highly praised and affirmed by the relevant industries. At this, all the colleagues of Sunlight Electronics Laboratory wish to express our sincere gratitude to all the relevant industries, thank you for your trust and support in us for the past decades!

Starting from **January 1, 2018**, except that Model-7116C 20W / 100W and Model-8121C 100W which will continue to produce, production for all other models of Sunlight's test instruments will be terminated (Model-139B Loudspeaker Polarity Tester still has stocks, will cease to produce after sold out). This policy will inevitably cause inconvenience to the relevant industries, we hereby also convey our sincere apologies to all the relevant industries!

However, for the various types of test instruments that have been sold (including those test instruments pending to be dispatched), we will still uphold the principle of "good faith" and maintain the necessary after-sales service:

For all types of test instruments sold and shipped out from Sunlight Electronics Laboratory:

1. The newly bought test instruments maintain one-year warranty, and are provide with repair and maintenance services up to the end of 2022.
2. For all the test instruments and their relevant various types of accessories, cables etc., that were sold beyond five years (counted from the date of delivery), pardon us for no longer provide the repair service.
3. Any test instruments bought within the period 1 to 5 years, may send back to our factory for calibration (limited to Taiwan territory), but no calibration report will be provided.
4. Repair and Maintenance period is up to **December 31, 2022** only, thereafter all the repair maintenance services will be terminated!

Repair service:

1. Before requesting for repair / calibration, be sure to take first the picture of the instrument's serial number at the rear panel, and then send the picture via e-mail to Sunlight Electronics Laboratory for verification. Otherwise, without sending us first the said e-mail, sorry for unable to handle the case, kindly cooperate.
2. Tel: +886 2 2222 3759 Fax: +886 2 2223 0727 E-Mail: service@sunlilab.com.tw
3. Sunlight is responsible for the repair tasks only, and will charge appropriate repair fee (free charge for those within one year warranty period), but not responsible for back and forth shipping costs, and also not responsible for collecting and delivery the instruments for repair and calibration. Please pardon us for the inconvenience we might have caused you.
